

## **Amounts received by the Parity Committee before 2021 and repayable to inactive employees**

October 2023

The Parity Committee for the Building Services, Montreal region, accumulated some amounts on behalf of employees having worked in the building service industry before January 1st, 2021.

These amounts were received from building service employers either for RRSP contributions on behalf of their employees or claims from the Parity Committee on behalf of employees.

If you have worked for a building service employer before January 1st, 2021, and you are no longer working in this industry, the Parity Committee may hold some amounts on your behalf which we were unable to forward you (in the case of a claim) or to transfer to the trustee (for the RRSP contributions).

In November 2023, the Parity Committee will contact all related employees, in writing and will provide further information on how to proceed to obtain these amounts.

All amounts accumulated as of December 31st, 2020, which are not claimed as of March 3<sup>rd</sup>, 2024, will be transferred to Revenu Quebec according to article 22 o) of An Act Respecting Collective Agreement Decrees (L.R.Q., c. D-2). Related articles of the Public Curator Act regarding unclaimed property apply to these amounts.

If you have moved since January 2021 and have not updated your address at the Parity Committee, we invite you to do so by clicking on the following link:
